QUALIFIED SECURITY ASSESSOR

The Payment Card Industry (PCI) Security Standards Council (SSC) is an open global forum founded by a consortium of the major card brands. The PCI SSC created and maintains the PCI Data Security Standard (DSS) which encourages and enhances cardholder data security and facilitates the broad adoption of consistent data security measures globally. The PCI DSS Requirements and Security Assessment Procedures set forth 12 PCI DSS requirements, and defines compliance testing procedures, to form a common security assessment tool. The current version of the PCI DSS can be found at www.pcisecuritystandards.org.

This document confirms that Digital Jewels Africa Limited, a certified Qualified Security Assessor (QSA) Company, utilized these procedures to conduct a remote compliance validation for the Payment Services provider; and validated its compliance with the applicable sections of the PCI DSS version 4.0.1.
